METALMASTER 3.0

Precision Cutting with a compact design.

The **MetalMaster 3.0** provides superior cut quality at a low cost. This space saving, compact machine can be quickly installed and ready-to-use. Cutting capacity up to 3" thick plate.

Longitudinal drives with precision guiding system maintains accuracy to create quality cut parts. Positioning speeds up to 1000 ipm coupled with a fast, intelligent torch lifter helps minimize non-productive time. This table features integrated smoke extraction and easy clean-out buckets.

With the **NEW** user-friendly Windows® based Global Connect touchscreen control you are only a few clicks away to begin cutting. Virtual Service™ support puts applications and service help one push button away.

This new and improved MetalMaster 3.0 also offers an **optional water table**.

Contact the Sales Department to request a quote sales.us@messer-cutting.com or call (262) 255-5520.

MetalMaster 3.0 Newest Features

O₂ N₂ Air Ar

- XPR X-Definition mild steel cutting.
- Very good thin stainless steel cutting. Nitrogen HDi processes available for non-ferrous materials.
- Nitrogen marking capability.
- Enhanced Argon marking capability.
- Argon assist technology increases pierce capacity.

Hypertherm CorePlus

Global Connect Control

STANDARD FEATURES

- + Cutting width 5'.
- + Cutting length 10'.
- + Hypertherm Powermax 125 plasma torch with cutting up to 1" thick material. (Standard)
- + Cuts mild steel, stainless steel, and aluminum.
- + Compact design.
- + Positioning speed of 1000 ipm reduces idle time between cuts.
- + Control console mounted on the right side of machine for ease of access and safe operation.
- + Easy access to cutting table for quick and easy plate loading and unloading.
- + Specially designed slag buckets for easy table cleaning.
- + Global Connect, user-friendly touch-screen panel with a Windows® interface.
- + Virtual Service™ remote diagnostics.
- + Glare Shield.
- + Laser Pointer.
- + CSL torch lifter with SureStop Collision Sensor.
- + Reliable height control via arc-voltage sampling improves nozzle life and cut quality.
- + UL/CUL

OPTIONAL FEATURES

- + Turbo Flame™ oxyfuel torch with SureStop Collision Sensor and Omniflow gas control.
- + XPR170 & XPR300 with plasma cutting up to 2" thick material.
- + Hypertherm ControlPlus Console offer a 10% increase in argon piercing thickness and nitrogen marking capability.
- + Water Table.
- + Ask about Visual Service.
